Provide a summary of the work undertaken. *

Translated our standard info pamphlet into NZSL video, added to our website.

We view this as an initial project to translate more comprehensive key info into NZSL, alongside a broader translation project.

Tell us about the activities carried out in this initiative to improve web accessibility.

What impact has this work had? *

To our knowledge there are no resources on endometriosis for the community dependent on NZSL. This is a community that is lacking basic information on reproduction let alone more complex topics such as endometriosis. In addition they face barriers to accessing even basic healthcare.

So this has the potential to provide a life-changing resource for this community.

Ideally we need to be able to produce a lot more accessible information to overcome multiple barriers - info on how to navigate the health system, self-advocacy, basic reproductive information, as well as more detailed information about endometriosis management and self-care.

You may like to share any feedback you have received or describe changes you have noticed, for example, who and how people are able to engage with your website.

Provide additional details

Our ultimate aim is to have a dedicated NZSL page which will have multiple resources and information. Right now we've just added this one resource to the bottom on our generic Info Hub page, and promoted out through social media.

Are you happy for us to share these as examples for others to learn from?

Yes No Ask us first

Which population group/s were affected by this project or program? *

Gender groups > Diverse Gender Identity (DGI)

Gender groups > Females

Health > People with disabilities > People with hearing impairments

Health > People with diseases and illnesses > Chronically ill people

Social and economic status > Immigrants and migrants

Please choose only the group/s that were at the very core of this project/program.

What did you learn during this project? *

Amazing little project!! Aside from completing this translation:

* We've connected with a local NZSL translation company that is keen to work with us more.

* We've learnt more about how to translate into NZSL - previously we have very little understanding of what was involved - which will put us in good stead for future translation work.

* We've firmed up where we want to go with further NZSL translation work. We'll be adding a dedicated NZSL page where all future NZSL resources will go.

* We've connected with Internet NZ which has meant we have successfully been able to complete this project which has been on our 'wish list' for years!

Share anything that might help others who are also looking to improve their web accessibility.

Would just like to say a huge thanks for this funding. We have been wanting to do this mahi for a very very long time. Your funding 100% enabled it to go ahead, and will change lives for a cohort facing multiple barriers to accessing empowering information.

Please pass on our thanks to everyone involved, and do let us know if there are further opportunities to collaborate.
