Grant initiative update

Initiative title *

Education Arcade: Developer Tools Refresh

Provide a short summary of the work that was completed as part of this initiative.

*

Education Arcade was able to refresh its developer tools to create free, interactive online safety educational resources for tamariki in New Zealand. As part of this initiative we developed two online safety games called "CIA secure" and "Safe Surfing". We also developed a 20 online safety lesson program for schools, including a detailed teachers guide to aid in implementing the learnings from these lessons. Each module consists of a learning task, and a practical activity so students were able to implement what they had learnt from our course. 2,000 schools were invited to use our content for free to enhance their lesson plans, which included topics such as: starting out secure, cyber crimes, social media safety, password protection, personal data protection, hackers 101, harmful digital communications, safe online gaming, stranger danger, and digital citizenship.

Describe the "who, what, where and when" of your initiative.

Is this initiative complete? *

Yes No

If your initiative is still in progress, select "no."

What are the outcomes of this initiative? *

Between March 2023 and March 2024, we saw a total visitor volume of 123,327, a 69.6% increase from the same period last year (85,886). Our work this year was also recognised by the cyber security industry as we won the award for 'Most innovative educator in cyber security', which gave us an opportunity to publicly thank Internet NZ for all of their support.

Describe major achievements resulting from this grant.

Total Income Amount	Total Expenditure Amount	Income - Expenditure
\$10,655.98 This number/amount is calculated.	\$10,655.98 This number/amount is calculated.	\$0.00 This number/amount is calculated.

Have you experienced any issues with your intended budget? If so, please explain reasons for any major variances or for providing incomplete information:

PC part prices fluctuate quite a lot so between the time of submitting my grant application and receiving the funding, costs of PC parts increased so I decided to use my own money to make up the short fall of \$756.18.
