Grant initiative update

Initiative title *
Creating a community training in overcoming false Information

**Provide a short summary of the work that was completed as part of this initiative.
***
We have developed a community based training in strategies and tactics for countering and preventing the spread of false information. We have developed a half day in-person training workshop and and 2 x 90 mins live online training for different types of organisations, including community ones.

The training is focussed on teaching people, and giving them a chance to practice, evidence-based tactics that can prevent the spread of false information online and in real life.

We would have produced a basic set of course materials including a handbook, curriculum overview, presentation slide deck, and group based activities to help people practise tactics.

We have completed the development of the training within the grant budget (with additional funding from the NZCTU and with contribution of time by The Workshop).

As noted in the grant application, we won't be able to deliver the training with the InternetNZ funds. We were funded by the NZCTU to deliver a pilot of the workshop to union affiliates, and got some good initial feedback which enabled us to tweak the format.
Describe the "who, what, where and when" of your initiative.
