This grant has enabled us to build a new website that is more fit for purpose for our dementia clients and their supporters. The new website will be flatter in structure to minimise navigation moves and will be using colors and fonts suitable for those with a disability. There will be minimal drop down menus and concise content wording. There are links to resources, videos and other online content.

We have finished the main website design and are now formulating the forms required for referrals, subscribing and donations. These will link into our Infoodle CRM and Xero packages. WE are scheduling a launch date of 1st week of October.

Tell us about the activities carried out in this initiative to improve web accessibility.

What impact has this work had? *

You may like to share any feedback you have received or describe changes you have noticed, for example, who and how people are able to engage with your website.
