What were the highlights and main takeaways of this conference?
I was inspired by the diversity of the topics and the quality of the work presented in this conference. There are various topics related to Internet use, including internet gaming disorder, excessive online-shopping and pornography use. With the increased popularity of Internet use, we must enhance our understanding of these new disorders, protect minors and establish pathways to prevention and treatment.

What were the favorite sessions, any contacts you made, etc.

What were the lowlights of the conference?
Many interesting talks were held at the same time and it is impossible to attend all of them.

What would you do differently?

How will you plan to share your learnings with the New Zealand Internet Community?
Happy to present a talk and send my paper related to Internet use if required.

We'd love to see some visual and audio representations of your work. Please share below.

Have you experienced any issues with your intended project budget to date? If so, please explain reasons for any major variances or for providing incomplete information:
The actual cost was a little bit greater than I proposed as. This mainly is due to fluctuation of currency rate.
