What were the highlights and main takeaways of this conference?

Attending this conference was a productive and valuable experience. I had attended a similar conference in Japan in 2018 (PACIS2018). Same as last year, at PACIS2019, I managed to attend both relevant sessions that interest me, including IS Implementation and IS security. I was lucky to meet and have fruitful conversations with experienced, well-known and established researchers in the area.

I met several researchers and discussed the possibility of joint projects in the near future. I have also received productive feedback/comments from the expert researchers of the domain on my research paper that will be beneficial for my future works.

InternetNZ conference fund was immensely beneficial, which made the experience happen for me; and I hope InternetNZ can continue with providing such conference attendance funds that are very helpful for emerging researchers.

What were the favorite sessions, any contacts you made, etc.

What were the lowlights of the conference?

I think everything was good.

What would you do differently?

How will you plan to share your learnings with the New Zealand Internet Community?

I would like to liaise with the InternetNZ community regarding the presentation of the findings and solutions of my research in the upcoming related event(s), which may be helpful for the higher education community.

We'd love to see some visual and audio representations of your work. Please share below.
