What were the highlights of the conference?	My favourite part is the demo session in which "Dynamic Cloud Service Placement for Live Video Streaming with a Remote-Controlled Drone" attracts most attention and also wins the best demo award. It encourages us to explore the new research area especially from the inter-discipline aspects such as cloud + networking, drone + networking, big data + networking and VR + networking, etc.
What were the lowlights of the conference?	I find there is no other NZ researcher to attend this prestigious conference. We should encourage more NZ researchers to submit their papers to top-ranking conferences to promote New Zealand as well as NZ's research.
Was their media coverage or media-worthy content at the Conference?	http://im2017.ieee-im.org/ https://twitter.com/ieeeim2017
