Provide additional details:

Our evaluation plan is the same as we proposed. We are evaluating the impact of the intervention on the students, and the teachers. We expect to have early results in January 2024

Let us know if anything you have shared is confidential or can be used to promote this work. Remember this report will be placed on our website for transparency unless otherwise requested.

What have you learnt so far? *

We have learnt a lot about catering to different student needs. We have learnt that while the engagement is high, some students do not want to learn to code. We have learnt that it pays to limit the ratio of teachers to students.

Describe what is working well so far or challenges you have faced. These insights may help others.

What (if anything) have you changed in your approach or practices? Explain why this was necessary?

We were unable to connect with the Schools we had planned. We did eventually find two local Schools that have been incredibly supportive.

Describe any changes from the original proposal and the rationale for those changes.

Which population group/s were affected by this project or program? *

Age groups > Children and youth (age 0-17)

Please choose only the group/s that were at the very core of this initiative.
