## Group Investment Portfolio

## Measurement and Recognition of Managed Funds

Under international financial reporting standards (IFRS), Financial instruments are measured and recognised under specific accounting standards.

Financial instruments comprise trade debtors and other receivables, cash and cash equivalents, investments and trade creditors and other payables.

Managed Funds are classified under the following category
"Financial assets at fair value through surplus or deficit"
At each reporting date (monthly), the market value of the managed funds as reported by the fund managers provides the fair value of the funds; an adjustment is then taken up to reflect the fair value through surplus or deficit to the profit and loss for the reporting period.

We report the Cash in Excess of Reserves position as of 30 Sept 2022 at $\$ 3 M$ as provided below:

| Total Cash \& Current Assets | $\$ 19,232,530$ |
| :--- | :---: |
| less: Deferred Income | $(\$ 11,760,138)$ |
| less: Reserves as per the policy | $(\$ 3,396,943)$ |
| less: other Current Liabilities | $(\$ 1,083,465)$ |
| Cash in Excess of Reserves | $\$ 2,991,985$ |

The close of the second quarter for the 2022-23 financial year sees Net Equity at $\$ 10.6 \mathrm{M}$ (reported as $\$ 10.4 \mathrm{M}$ in the first quarter) and the Net Equity minus Reserves position at $\$ 7.6 \mathrm{M}$ (\$7.3M in the previous years quarter).

This exceeds the measure currently required by the Financial and Investment Strategy Policy, which sets the Net Equity minus Reserves target at \$5.5M.
