

Jamie Baddeley
President
InternetNZ

29 June 2017

Dear Jamie

InternetNZ Organisational Review

The Ministry of Business, Innovation and Employment (MBIE) welcomes the public consultation on the organisational review of InternetNZ.

We support your goal of becoming a more effective, efficient, outward facing and agile organisation.

MBIE values InternetNZ's contribution and there will be many issues like cyber security where you will continue to provide a useful viewpoint. Our Memorandum of Understanding (MoU) clearly sets out our roles and expectations in relation to the .nz domain name. It will be important that the operation of the MoU is not compromised by changes to your structure. To date we are comfortable with the way the MoU has been working.

Broadly speaking, our objectives are to ensure that InternetNZ:

- represents the interests of the broader internet community and supports the long-term benefit of all end-users of telecommunications services; and
- commits to high standards of public transparency and accountability in all aspects of its activity.

I wish you well for your review and look forward to continuing our discussions.

Yours Sincerely

Brad Ward
General Manager
Commerce, Consumers & Communications Branch
Ministry of Business, Innovation & Employment
