Assessing data privacy and security policies in Schools

Provide a short summary of the work that was completed as part of this project / research. *

The initial work on understanding the existing frameworks on cybersecurity is initiated. We are also done the ground work in selecting schools and are in the process of communicating with them for initial analysis.

It is to be noted that there was a bit of delay in the agreement process and it was officially completed on 20th of May from MIT. This had a direct impact on the starting of the project particular taking research assistants on board and has considerable impact on the deadline.

The the technology side, I have deployed and tested required tools for Vulnerability analysis and I am in the process of documentation.
