

.nz Rules

Version 3.1 - Effective 1 July 2025

Introduction

Context

InternetNZ holds the delegation for the .nz country code top level domain. It operates the regional registry for New Zealand (the .nz Register). The .nz Register is a single register, shared registry system that manages the registration of .nz domain names and associated data.

The guiding basis for the management of country code top level domains, including .nz, is set out in RFC 1591. Using RFC 1591, the Internet Corporation for Assigned Names and Numbers (ICANN), as the Internet Assigned Numbers Authority (IANA) Operator, is responsible for processes supporting global DNS related functions, including the delegation of country code top level domains.

Consistent with RFC 1591, there is no concept of 'ownership' involved in holding the delegation for .nz. InternetNZ serves at the pleasure of the local Internet community. It regards this role as one that must be done with the trust and on behalf of that community.

These .nz Rules have been made by InternetNZ in consultation with the local Internet community.

InternetNZ

InternetNZ is responsible for:

- the overall operation of .nz
- the long-term strategy for .nz, which binds InternetNZ and DNCL
- maintaining and developing these .nz Rules
- the operation of the .nz Register and .nz Authoritative DNS consistent with agreed and publicly available service level commitments
- billing relationships with Registrars
- setting the monthly fee Domain Name Holders must pay for a .nz domain name, in consultation with DNCL
- intellectual property rights in the .nz Register
- being the lead representative in the Internet Governance system (e.g. ICANN, APTLD) in collaboration with DNCL
- the development of products for .nz.

DNCL

The Domain Name Commission Limited (DNCL) is a subsidiary of InternetNZ. Through the [DNCL Operating Agreement](#) InternetNZ has appointed DNCL to manage .nz on behalf of InternetNZ. Ultimate responsibility for .nz remains with InternetNZ.

DNCL's role, responsibilities and obligations are detailed in clauses 8 (Roles, responsibilities and obligations) and clause 12 (Complaints and enforcement). DNCL acts independently of, and is not responsible to, InternetNZ for the performance of its functions and responsibilities.

DNCL also:

- a. monitors and publicly reports on the markets that operate in .nz
- b. reports to InternetNZ on its corporate performance, and on its responsibilities as set out in these .nz Rules and in the DNCL Operating Agreement.

DNCL can only intervene in the relationship between Domain Name Holders and Registrars or between Registrars and InternetNZ in accordance with these .nz Rules and associated agreements and contracts.

Domain Name Commissioner

The Domain Name Commissioner (the Commissioner) is the most senior staff member in the Domain Name Commission. The Commissioner in undertaking compliance and dispute resolution functions acts independently of InternetNZ.

InternetNZ and DNCL

InternetNZ and DNCL are jointly responsible for:

- a. developing a strategic view of .nz
- b. maintaining the security, stability and resilience of .nz
- c. publishing information about .nz
- d. promoting .nz in the public interest.

InternetNZ holds DNCL to account for its performance of its responsibilities through:

- a. InternetNZ's ownership interest in DNCL
- b. the InternetNZ Chief Executive chairing DNCL's Board
- c. the shared strategy and budget planning process.

Registrars

Registrars manage .nz domain names on behalf of Domain Name Holders by communicating with InternetNZ and managing information on the .nz Register. They are authorised to operate in .nz by DNCL.

Domain Name Holders

Domain Name Holders are persons InternetNZ has licensed to hold a .nz domain name. Domain Name Holders must choose a Registrar to manage their .nz domain name on their behalf.

Moderators

Moderators apply a Moderation Policy to determine who can be a Domain Name Holder of a .nz domain name in one of the Moderated Domains (see clause 9). For example, the Moderator appointed by the New Zealand Government determines who is able to use the Moderated Domain .govt.nz to register a third level domain name like education.govt.nz. Moderators also ensure that all .nz domain names in the Moderated Domain comply with the Moderation Policy.

Resellers

Resellers provide domain name registration services but are not a Registrar authorised under clause 11 (Authorisation of Registrars). They buy .nz domain names and manage domain name records for Domain Name Holders through an authorised Registrar (e.g., a person registering a .nz domain name on behalf of another person or an IT company that has been given direct access to a Registrar's services through an API). Resellers are often the intermediary between the end user (the Domain Name Holder) and the registrar and sometimes provide value-added services like website creation or hosting.

See clause 8 (Roles, responsibilities and obligations) for more details on the roles, responsibilities and obligations of the main participants in .nz.

How these .nz Rules are organised

This document brings together the rules that bind all participants in .nz (the part of the Internet whose domain names end in '.nz'). These rules apply to all users of .nz domains, including Registrars and Domain Name Holders. They are comprised of:

- Principles
- Policies
- Operational Rules
- Procedures and requirements.

.nz Principles

These set out the basis on which all activity related to the registration and use of .nz domain names should be judged. They will be the key factor in determining whether .nz is operating as the community intends. They will help InternetNZ consider what Policies, Operational Rules and Procedures & Requirements .nz should have, how they should operate and whether they should be modified.

Policies

These are based on the Principles and set out the course of action to be taken by InternetNZ and DNCL in determining what the Operational Rules and Procedures & Requirements should be. They will also guide InternetNZ and DNCL in performing their registry and regulator functions.

Operational Rules

These provide detailed rules about how .nz operates. They set out:

- how .nz domain names are registered, renewed, assigned and cancelled
- optional features that can be applied to .nz domain names
- the terms of .nz domain names and how they are renewed
- the obligations of participants in .nz
- how moderated .nz domains are operated
- how people can search the .nz register
- how entities are authorised to be registrars in .nz
- how the .nz Rules are enforced and how disputes between participants are investigated and managed.

Procedures and requirements

These detail the procedural requirements and minor or technical requirements of .nz or the domain name system.

Conflict

The differing parts of the .nz Rules should be read wherever possible so they are consistent. If this is not possible and there is an apparent inconsistency between:

- the Principles
- the Policies
- the Operational Rules
- the Procedures & Requirements

then the .nz Rules should be interpreted to give the Principles the highest priority, followed by the Policies, then the Operational Rules and lastly the Procedures & Requirements.

Modification

Changes to these .nz Rules can be made in accordance with the Policy Development Process in Schedule 1.

.nz Principles

The following principles guide the management of .nz:

- **.nz should be secure and trusted:** .nz infrastructure must be dependable and secure, and .nz be trusted
- **.nz should be open and accessible:** everybody should be able to observe, participate, innovate and enjoy the benefits of .nz
- **.nz should serve and benefit New Zealand and reflect and be responsive to our diverse social, cultural and ethnic environment**
- **.nz should support te reo Māori me ōna tikanga and participation in .nz by Māori**

[Note: this draft principle is to be discussed and will form part of the Māori engagement plan.]

- **.nz should enable New Zealand to grow and develop:** it should help people, businesses and organisations connect, create, innovate and grow

The .nz Principles must be taken as a whole and any tensions between them carefully balanced. No principle is dominant over another.

1. General policies

1.1. .nz domain names can be registered:

- as a Second Level Domain Name at the top level (.nz)
- as a Third Level Domain Name in one of the Unmoderated Second Level Domains:
 - .ac.nz
 - .co.nz
 - .geek.nz
 - .gen.nz
 - .kiwi.nz
 - .maori.nz
 - .net.nz
 - .org.nz
 - .school.nz
- as a Third Level Domain Name in one of the Moderated Second Level Domains:
 - .cri.nz
 - .govt.nz
 - .health.nz
 - .iwi.nz
 - .mil.nz
 - .parliament.nz

1.2. No new second level domains will be created.

1.3. Responsibility for the registry, registrar and regulatory functions of .nz is held by separate entities:

- a. the registry function is performed by InternetNZ, which runs the .nz Register
- b. the regulatory function is performed by DNCL, a subsidiary of InternetNZ
- c. the registrar function is performed by various entities DNCL has authorised to operate as Registrars.

1.4. Each Domain Name Holder has an agreement with their Registrar. Each Registrar has an agreement with InternetNZ and with DNCL. DNCL can intervene in these relationships in accordance with these .nz Rules and associated agreements.

1.5. InternetNZ and DNCL will seek to minimise barriers to enter the .nz market as a Registrar. Entry requirements will be set no higher than necessary to ensure .nz is secure and trusted and to maintain a competitive and stable market for registrars.

1.6. The laws of New Zealand apply to these .nz Rules. The lawful instructions of the courts and the authorities made as part of due process will be complied with.

- 1.7. These .nz Rules can be amended in accordance with the Policy Development Process in Schedule 1.

2. Registration of a .nz domain name

2.1. Policies

- 2.1.1. Any available domain name can be registered on the .nz Register on a first come, first served basis in accordance with these .nz Rules.
- 2.1.2. InternetNZ is not concerned with the use of a .nz domain name.
- 2.1.3. A .nz domain name will be automatically renewed on the expiry of its term (subject to the Auto-Renew Grace Period) unless it is cancelled.
- 2.1.4. Macrons used in te reo Māori, an official language of New Zealand, can be used in .nz domain names.

2.2. Operational Rules

- 2.2.1. A person can apply to register a .nz domain name through a Registrar authorised under clause 11 (Authorisation of Registrars) if the person is an identifiable individual over the age of 18 or lawfully constituted entity.
- 2.2.2. DNCL may request a Domain Name Holder at anytime to provide any relevant information to verify their identity (Identity Verification), this includes but is not limited to:
- a. where a Domain Name Holder is an individual, a verified copy of the original passport, drivers licence or other government issued identification; or
 - b. where the Domain Name Holder is a lawfully constituted entity, a certificate of incorporation or a copy of the constitution

The Domain Name Holder must provide the Identity Verification within the timeframe detailed in the request made by DNCL.

- 2.2.3. In making the application:
- a. the applicant warrants that:
 - i. they are entitled to register the domain name as requested
 - ii. registering the proposed .nz domain name would not infringe any other parties' rights
 - b. the applicant agrees that:

- i. their registration will be governed by New Zealand law
- ii. they will comply with all of their obligations as set out in these .nz Rules, their contract with their Registrar and any other related agreements.

2.2.4. To register a domain name on behalf of an applicant, a Registrar must:

- a. ensure the applicant has agreed:
 - i. to the Registrar's terms and conditions
 - ii. to be bound by these .nz Rules; and

- b. give InternetNZ any information specified in clause 2.3.5
- c. pay the fee specified in clause 7.3.

2.2.5. All applications to register a domain name that comply with these .nz Rules must be registered in the order they are received.

Nature of a .nz domain name

- a. begins on the date it is registered or renewed
- b. ends either:
 - i. on the expiry of the term for which it has been registered or renewed

- c. must not be less than the default term or more than the maximum term
- d. must be indicated in whole years.

Example. A .nz domain name cannot be registered for 2.5 years. It must be registered for either 2 years or 3 years.

2.2.8. On or before the expiry of the term of a .nz domain name the Registrar must renew the registration for a new term or cancel the registration. If the Registrar does not renew or cancel the registration on the expiry date, InternetNZ will automatically renew the registration for the default period subject to the Auto-Renew Grace Period.

2.2.9. Each Registrar must ensure that at all times the term of a .nz domain name as specified on the .nz Register is aligned with the frequency on which the Registrar has agreed to bill the Domain Name Holder for the .nz domain name.

Example. A Domain Name Holder agrees to pay a Registrar upfront to maintain the registration of a .nz domain name for 5 years. The Registrar cannot set up a one year term for that .nz domain name with InternetNZ. It must set the term of the .nz domain name InternetNZ to 5 years.

3.3.3. The Registrar must change the authorisation code as soon as practicable after a .nz domain name has been assigned to another person.

4. Changing the Registrar

4.1. Policies

- 4.2.7. If a Registrar needs to transfer several .nz domain names to another Registrar at the same time (for example, if a Registrar's business is sold to another Registrar or their authorisation is removed), DNCL can approve a bulk transfer.

- 4.2.8. DNCL may, in its sole discretion, offer to carry out a bulk transfer, especially where it is in the interest of Domain Name Holders that DNCL carry out the bulk transfer.

- 6.1.2. InternetNZ will enable Registrars to provide greater security to Domain Name Holders with:
 - a. the Registry Lock service, which enables Domain Name Holders to lock a .nz domain name to reduce the risk of unauthorised changes to it on the .nz Register
 - b. DNSSEC, which enables the public to authenticate the DNS records of a .nz domain name.
- 6.1.3. InternetNZ will not directly offer, or require Registrars to offer, to Domain Name Holders the Registry Lock service, DNSSEC or any other optional features of a .nz domain name.

 - c. decline the application.
- 10.2.33. DNCL must not release .nz Zone Data to third parties not directly involved in the management of InternetNZ or .nz unless DNCL considers, having regard to the .nz Principles and the information specified in clause 10.3, there is a sufficient public good justification to release the Zone Data.
- 10.2.34. DNCL may impose conditions on its approval of an application under clause 10.2.32(b), including requiring the applicant to enter into an agreement with DNCL as to the terms of release. For example, the agreement could:

- 12.2.14. DNCL can take steps or create initiatives intended to ensure that Registrars do not unduly benefit from, or be prejudiced by, their size or by the nature of their operation including geographical location inside or outside New Zealand.

Actions in relation to Domain Name Holders

- 12.2.15. DNCL must not suspend or cancel a .nz domain name under clause 12.2.8 unless DNCL determines that:

12.2.17. A locked .nz domain name cannot be amended in any way by the Registrar (including being transferred, cancelled or released).

12.2.18. DNCL will not attempt to recover money owed to the Registrar or any third party in relation to any enforcement action it takes. Neither DNCL nor the Commissioner shall be liable for any direct or indirect loss or damage suffered by a Domain Name Holder or any third party, arising out of any act or omission in connection with the exercise in good faith of the powers provided for in clauses 12.2.8 and 12.2.16.

12.2.19. Any action taken by the Commissioner under clause 12.2.16 can be made public, including the nature of the incident being dealt with and the timeframe for which the temporary approach is anticipated. Use of this power can also be included in the Commission's transparency reporting.

Effect of Compliance Lock

- 12.2.20. If a Compliance Lock is put on a .nz domain name:
- a. a Registrar must not seek to amend its registration in any way (including trying to assign, transfer, cancel or make available for registration)
 - b. no amendment on the .nz Register can be processed.

Enforcement against Resellers

Schedules

Schedule 1 - Policy Development Process

Schedule 2 - Dispute Resolution Service

Schedule 3 - Conflicted Name Process

Schedule 1 – Policy Development Process

This Schedule sets out the processes that InternetNZ must follow when creating or amending .nz policies.

1. Starting a policy process

- 1.1. InternetNZ can start a policy process on its own initiative or following a request under clause 1.3.
- 1.2. In deciding whether to start a policy process, InternetNZ will take into account the .nz Principles, operational needs and the impact not starting a policy process would have on the parties involved in .nz.
- 1.3. Anybody can contact InternetNZ or DNCL to request:
 - a. an amendment to the .nz Rules
 - b. that a part or parts of the .nz Rules be reviewed.
- 1.4. On receiving a request under clause 1.3, InternetNZ must:
 - a. publish the request on the InternetNZ website as soon as reasonably practicable

2. Policy process

- 2.1. If InternetNZ decides to begin a policy process, it can adopt any process it considers appropriate, as long as it complies with clauses 3 and 4.

3. Minimum engagement requirements

- 3.1. If the policy process involves a proposed amendment to any part of the .nz Rules other than the Procedures and Requirements, InternetNZ must ensure that it consults with anybody affected by the proposed change before making final policy decisions.
- 3.2. If the policy process involves a proposed amendment to the Procedures and Requirements, InternetNZ must notify the public at least 20 working days before the changes come into effect.
- 3.3. InternetNZ can determine the appropriate scope and process for consultation under clause 3.1 having regard to the nature and circumstances of the policy or amendments being developed.

- 3.4. InternetNZ must publish any submissions it receives on the InternetNZ website along with any consultation papers.
- 3.5. The validity of any amendment made to the .nz Rules will not be affected by any perceived or actual flaw in a consultation process.

4. Engagement with Māori

- 4.1. InternetNZ must inform itself about whether any Māori interests would be affected by any proposed change to the policies.
- 4.2. If Māori interests would be affected, InternetNZ must determine what level of engagement with Māori is appropriate, having regard to the nature and strength of those interests, balanced against other relevant interests.
- 4.3. Depending on the nature and strength of the interests involved, the engagement may involve engaging with Māori as part of the consultation in clause 3 or an additional or parallel engagement process.

[Note: this section is to be discussed and will form part of the Māori engagement plan.]

5. Publication of process and decisions

- 5.1. InternetNZ must make all consultation papers issued and submissions received available on its website.
- 5.2. InternetNZ must publish the final policy decisions as soon as reasonably practicable after they have been made.

6. Interim Policy

- 6.1. InternetNZ can urgently amend .nz Rules without following clauses 3 and 4 if InternetNZ determines that circumstances require the amendment immediately to preserve the integrity of the .nz Register or the security, stability or resilience of the DNS (for example, security related issues).
- 6.2. An amendment made under clause 6.1 must:
 - a. be identified as an interim policy
 - b. be reviewed in accordance with this policy as soon as practicable.
- 6.3. An interim policy still in effect after six months must be reviewed by the InternetNZ Council, unless otherwise agreed by the Council.

Schedule 3 (Version 2) - Conflicted Domain Names process (amended 2025)

1. Introduction

- 1.1. A process has operated since 2014 under which parties holding Equivalent Domain Names at the third level can agree who can register the equivalent domain name at the second level.

Note: This process only applies to a subset of third level registrations that were registered before 30 May 2012 and was developed as part of the introduction of .nz direct registrations.

- 1.2. On 1 July 2025, the ability **to agree** who can register the equivalent second level domain name ends. In particular, from 12pm 1 July 2025 a conflicted domain name will only be released where a single equivalent third level domain name remains - as a result of the cancellation of the other Equivalent Domain Names. This is known as a “last person standing” resolution.
- 1.3. Subject to the “last person standing” resolution process, the conflicted domain names will remain blocked unless this policy is reviewed and changed.

2. Definitions

- 2.1. A “Conflicted Domain Name” means the equivalent second level domain name where:
 - 2.1.1. Two or more equivalent domain names exist at the third level; and
 - 2.1.2. Prior to 1 July 2025 preferences have been filed in the preference database in respect of those (two or more) third level domain names and the conflict has not been resolved.
- 2.2. An “Equivalent Domain Name” is the same series of letters and numbers to the left of the most left dot in a domain name and Equivalent Second and Third Level Equivalent Domain Names have corresponding meanings.

3. New Conflicted Domain Names process (2025)

- 3.1. InternetNZ Group will create and maintain a list of Conflicted Domain Names not resolved as at 12pm on 1 July 2025. The Conflicted Domain Names on that list will be blocked unless they are able to be released under the last person standing resolution process.
- 3.2. InternetNZ Group will create and maintain a list of Equivalent Domain Names in respect of which preferences were filed for the Conflicted Domain Names on or before 12pm on 1 July 2025.
- 3.3. InternetNZ Group will monitor the lists and identify Conflicted Domain Names in respect of which there remains only one remaining continuously registered third level equivalent domain name.
- 3.4. Approximately once a year a batched release of domain names will be undertaken where there is only one remaining continuously registered third level equivalent, and accordingly:
 - 3.4.1. The holder of the final remaining Equivalent Domain Name will be notified (by emailing the registrant contact in the register) and given at least two calendar months from the date of notification to register the second level domain name (Conflicted Domain Name).
 - 3.4.2. Where the holder of the final remaining Equivalent Domain Name does not register the second level domain name (Conflicted Domain Name) within the notified period it will be released for general registration.
 - 3.4.3. Where, at the time that the batched release process commences, there is no remaining third level domain name registered (that is, all the third levels have been cancelled) then InternetNZ group need not offer the second level name (Conflicted Domain Name) to any person.
 - 3.4.4. InternetNZ need only offer the option to register to the person who is the holder of the remaining third level domain name at the time of the commencement of the batched release process. There is no obligation to restart the process because a change of domain name holder occurs during the process.

4. Review

- 4.1. The Conflicted Domain Names process may be reviewed in line with normal .nz policy development and review processes.

5. Commencement and transitional provisions

- 5.1. The New Conflicted Domain Names process (in clause 3 above) comes into force at 12 pm on 1 July 2025 and this Schedule 3 version 2 replaces Schedule 3, version 1 at 12pm on 1 July 2025.
- 5.2. Where an agreement to change a preference has been made before 12pm on 1 July 2025, but it has not been actioned (by making a preference change in the preference database) by 12pm on 1 July 2025 it will be considered invalid.
- 5.3. Where resolutions by agreement have been made, and preference change has been lodged, as of 12pm on 1 July 2025 the person entitled to register the domain name must register it within a reasonable period notified to them (being no less than two months). If the domain name is not registered within the notified period then the domain will continue to be blocked and will be managed under the 2025 process.
