What were the highlights and main takeaways of this conference?

The purpose of ISCRAM Asia Pacific 2018 is to exchange research and experiences of information systems use in emergency management, particularly focussed around applications of information systems in the context of the four priorities of the Sendai Framework (2015-2030) for disaster risk reduction which includes: (i) understanding disaster risk; (ii) strengthening disaster risk governance to manage disaster risk; (iii) investing in disaster reduction for resilience; and (iv) enhancing disaster preparedness for effective response and to "Build Back Better" in recovery, rehabilitation and reconstruction.

The highlights of this conference are the keynotes including:

- Prof. Virginia Murray, Public Health Consultant, Global Disaster Risk Reduction, Public Health England, UK, and her talk is about "The Sendai Framework - how it is promoting research

and development, exchange of knowledge and deployment of information systems for crisis management"

- A/Prof. Julie Dugdale, University Grenoble Alps, France and her talk is about "A State of the Art Assessment of Research"

Moreover, the Doctoral Colloquium on 4th November was well attended and also with good quality interaction and discussions in the area of Information Systems for Crisis Response and Management.

What were the favorite sessions, any contacts you made, etc.

What were the lowlights of the conference?

The conference was well organized and I had very good attending experience. Since there are three workshop sessions running parallelly, and I had to miss some sessions.

What would you do differently?

How will you plan to share your learnings with the New Zealand Internet Community?

I will share this conference information, my learnings and my participation experience with wider NZ Internet communities whenever there is an opportunity to connect with them. I have shared the conference information and key contacts with the InternetNZ staff, and also

Have you experienced any issues with your intended project budget to date? If so, please explain reasons for any major variances or for providing incomplete information:

For the registration fee, since I (and also AUT) am not a member of ISCRAM, so had to pay the full registration of 1150NZD. The total cost gap had been filled by my own money.
