What were the highlights and main takeaways of this conference?

The keynotes were good particularly, the versatility of the topics and speakers. I received some valuable feedback which I will be implementing in my next project. Further, it has widen the scope of my research and enable me to amend/ improve my cyber security awareness frame work, that could be suitable for developing countries as well.

I have made some good contracts and have agreed for mutual collaborative research program for creating cyber security awareness in developing countries like India.

What were the favorite sessions, any contacts you made, etc.

What were the lowlights of the conference?

The audience were busy with parallel sessions and there is a no common session with selected papers (top papers) which is not in the case of top conferences.

What would you do differently?

How will you plan to share your learnings with the New Zealand Internet Community?

I am planning to start working of a program to create cybersecurity awareness and would be looking forward to start this year.

We'd love to see some visual and audio representations of your work. Please share below.
